Children and Discipline

We are committed to the belief that children learn best in an atmosphere which values and respects the uniqueness of each individual child. We believe that an important part of our teaching task involves helping children develop an inner discipline. This means we must provide reasonable rules, logical consequences for breaking those rules, and be willing to give more personal responsibility to the children as they are able to assume it.

In this program we utilize positive techniques of guidance, including redirection, anticipation and elimination of potential problems, positive reinforcement, and encouragement. As the circumstances may require, we will use supervised time apart from the group. Consistent, clear rules and daily routines are established and we stress the importance that they be followed by everyone.

In the event of any persisting problem with your child, we will work closely with you so that together with our mutual understanding and reinforcement we can direct a behavioral pattern. If a child has continual difficulty controlling behavior to the extent that there is continual disruption to the class, making it impossible for others to have a successful school experience, a conference will be necessary to determine the continuation of the child in our program.

Remember that a crisis at home affects the child's behavior at school. Let us know the joyous happenings, the upsetting experiences, or important changes at home which may affect behavior. It is also important to let teachers know what a child has been told about an impending birth, serious illness, being adopted, or a recent death so any conversation can follow with complete empathy.

In all events, we like to consider this a joint venture with you in a mode of continuing development for your child.

- Section 65C-22.006(2) F.A.C. requires a current physical examination (Form 3040) and immunization record (Form 680 or 681) within 30 days of enrollment. Please note some children may be on a delayed immunization schedule.
- Section 402.3125(5), F.S. requires that parents receive a copy of the Child Care Facility Brochure, "Know Your Child Care Facility" (CF/P1 175-24)
- Section 65C-22.006(3)(c), 2, F.A.C., requires that all parents are notified in writing of the disciplinary practices used by the child care facility.

Your signature below indicates that you have received the above items and that the information on this enrollment form is complete and accurate, as well as granting consent for child care personnel to have access to child's records.

During the 2009 legislative session, a new law was passed that requires child care facilities, family day care homes and large family child care homes provide parents with information detailing the causes, symptoms, and transmission of the influenza virus (the flu) every year during August and September.

What should I do if my child gets sick?

Consult your doctor and make sure your child gets plenty of rest and drinks a lot of fluids. Never give aspirin or medicine that has aspirin in it to children or teenagers who may have the flu.

CALL OR TAKE YOUR CHILD TO A DOCTOR RIGHT AWAY IF YOUR CHILD:

- Has a high fever or fever that lasts a long time
- Has trouble breathing or breathes fast
- Has skin that looks blue
- Is not drinking enough
- Seems confused, will not wake up, does not want to be held, or has seizures (uncontrolled shaking)
- Gets better but then worse again
- Has other conditions (like heart or lung disease, diabetes) that get worse

How can I protect my child from the flu?

A flu vaccine is the best way to protect against the flu. Because the flu virus changes year to year, annual vaccination against the flu is recommended. The CDC recommends that all children from the ages of 6 months up to their 19th birthday receive a flu vaccine every fall or winter (children receiving a vaccine for the first time require two doses). You also can protect your child by receiving a flu vaccine yourself.

What can I do to prevent the spread of germs?

The main way that the flu spreads is in respiratory droplets from coughing and sneezing. This can happen when droplets from a cough or sneeze of an infected person are propelled through the air and infect someone nearby. Though much less frequent, the flu may also spread through indirect contact with contaminated hands and articles soiled with nose and throat secretions. To prevent the spread of germs:

- Wash hands often with soap and water.
- Cover mouth/nose during coughs and sneezes. If you don't have a tissue, cough or sneeze into your upper sleeve, not your hands.
- Limit contact with people who show signs of illness.
- Keep hands away from the face. Germs are often spread when a person touches something that is contaminated with germs and then touches his or her eyes, nose, or mouth.

When should my child stay home from child care?

A person may be contagious and able to spread the virus from 1 day before showing symptoms to up to 5 days after getting sick. The time frame could be longer in children and in people who don't fight disease well (people with weakened immune systems). When sick, your child should stay at home to rest and to avoid giving the flu to other children and should not return to child care or other group setting until his or her temperature has been normal and has been sign and symptom free for a period of 24 hours.

For additional helpful information about the dangers of the flu and how to protect your child, visit: <http://www.cdc.gov/flu/> or <http://www.immunizeflorida.org/>

What is the influenza (flu) virus?

Influenza ("the flu") is caused by a virus which infects the nose, throat, and lungs. According to the US Center for Disease Control and Prevention (CDC), the flu is more dangerous than the common cold for children. Unlike the common cold, the flu can cause severe illness and life threatening complications in many people. Children under 5 who have the flu commonly need medical care. Severe flu complications are most common in children younger than 2 years old. Flu season can begin as early as October and last as late as May.

How can I tell if my child has a cold, or the flu?

Most people with the flu feel tired and have fever, headache, dry cough, sore throat, runny or stuffy nose, and sore muscles. Some people, especially children, may also have stomach problems and diarrhea. Because the flu and colds have similar symptoms, it can be difficult to tell the difference between them based on symptoms alone. In general, the flu is worse than the common cold, and symptoms such as fever, body aches, extreme tiredness, and dry cough are more common and intense. People with colds are more likely to have a runny or stuffy nose. Colds generally do not result in serious health problems, such as pneumonia, bacterial infections, or hospitalizations.

MSEE Snack and Food Guidelines

Preschool snack is a special time for the children to gather and share food and conversation with each other. During the school year the children will take turns bringing the "snack basket" home to refill. Snacks should be healthy. It is not necessary to send in juice, as we give the children water. Your child's teacher will notify you of the weekly rotation.

For the health and safety of your child, children with food concerns will be asked to bring in their own snack from home each day.

FACTS ABOUT

HEATSTROKE:

It only takes a car **10 minutes** to heat up **20** degrees and become deadly.

Even with a **window cracked**, the temperature inside a vehicle can cause heatstroke.

The body temperature of a child increases **3 to 5 times faster** than an adult's body.

⚠️ PREVENTION TIPS:

- Never leave your child alone in a car and call 911 if you see any child locked in a car!
- Make a habit of checking the front and back seat of the car before you walk away.
- Be especially mindful during hectic or busy times, schedule or route changes, and periods of emotional stress or chaos.
- Create reminders by putting something in the back seat that you will need at work, school or home such as a briefcase, purse, cell phone or your left shoe.
- Keep a stuffed animal in the baby's car seat and place it on the front seat as a reminder when the baby is in the back seat.
- Set a calendar reminder on your electronic device to make sure you dropped your child off at child care.
- Make it a routine to always notify your child's child care provider in advance if your child is going to be late or absent; ask them to contact you if your child hasn't arrived as scheduled.

During the 2018 legislative session, a new law was passed that requires child care facilities, family day care homes and large family child care homes to provide parents, during the months of April and September each year, with information regarding the potential for distracted adults to fail to drop off a child at the facility/home and instead leave them in the adult's vehicle upon arrival at the adult's destination.

Parent's Role

A parent's role in quality child care is vital:

- ☐ Inquire about the qualifications and experience of child care staff, as well as staff turnover.
- ☐ Know the facility's policies and procedures.
- ☐ Communicate directly with caregivers.
- ☐ Visit and observe the facility.
- ☐ Participate in special activities, meetings, and conferences.
- ☐ Talk to your child about their daily experiences in child care.
- ☐ Arrange alternate care for their child when they are sick.
- ☐ Familiarize yourself with the child care standards used to license the child care facility.

Quality Child Care

Quality child care offers healthy, social, and educational experiences under qualified supervision in a safe, nurturing, and stimulating environment. Children in these settings participate in daily, age-appropriate activities that help develop essential skills, build independence and instill self-respect. When evaluating the quality of a child care setting, the following indicators should be considered:

Quality Activities

- ☐ Are children initiated and teacher facilitated.
- ☐ Include social interchanges with all children.
- ☐ Are expressive including play, painting, drawing, story telling, music, dancing, and other varied activities.
- ☐ Include exercise and coordination development.
- ☐ Include free play and organized activities.
- ☐ Include opportunities for all children to read, be creative, explore, and problem-solve.

Quality Caregivers

- ☐ Are friendly and eager to care for children.
- ☐ Accept family cultural and ethnic differences.
- ☐ Are warm, understanding, encouraging, and responsive to each child's individual needs.
- ☐ Use a pleasant tone of voice and frequently hold, cuddle, and talk to the children.
- ☐ Help children manage their behavior in a positive, constructive, and non-threatening manner.
- ☐ Allow children to play alone or in small groups.
- ☐ Are attentive to and interact with the children.
- ☐ Provide stimulating, interesting, and educational activities.

Quality Environments

- ☐ Demonstrate knowledge of social and emotional needs and developmental tasks for all children.
- ☐ Communicate with parents.
- ☐ Are clean, safe, inviting, comfortable, child-friendly.
- ☐ Provide easy access to age-appropriate toys.
- ☐ Display children's activities and creations.
- ☐ Provide a safe and secure environment that fosters the growing independence of all children.
