MSEE Vaccination Policy

Vaccination Requirements

The Methodist School for Early Education (MSEE) is committed to providing a safe and healthy environment for all students, families, and staff. To support the health and well-being of our school community, all students enrolled at MSEE must maintain current immunizations in accordance with the immunization schedule recommended by the American Academy of Pediatrics (AAP), the U.S. Public Health Service, the Centers for Disease Control and Prevention (CDC), and the Advisory Committee on Immunization Practices (ACIP).

Required Documentation

Prior to a student's enrollment and attendance at MSEE, families must provide an up-to-date Florida Certificate of Immunization (Form DH 680) obtained through their physician or appropriate healthcare provider. Immunization records must remain current throughout the student's enrollment.

Compliance

Students are expected to receive all age-appropriate immunizations according to the currently recommended schedule. Parents and guardians are responsible for ensuring that required immunizations are completed, and that updated documentation is submitted to the school as needed.

Exemptions

As a condition of enrollment:

MSEE does not accept religious, philosophical, personal belief, or medical exemptions to its vaccination requirements.

Students who do not provide documentation verifying compliance with the school's immunization requirements will not be eligible to enroll or remain enrolled at MSEE.

Policy Acknowledgment

By enrolling a child at MSEE, parents and guardians acknowledge and agree to comply with this vaccination policy and understand that maintaining current immunization records is a condition of continued enrollment.

For information regarding recommended immunization schedules, please visit the American Academy of Pediatrics website at www.aap.org.
